React

- Developed a full-stack project inspired by the ASOS Cloths online store, aimed at providing a seamless and user-friendly online shopping experience.
- Implemented user authentication and authorization mechanisms using hashing (bcrypt) and JWTs for secure user sign-up and sign-in.
- Created a robust product management system with features like adding, updating, and removing products.
- Developed a shopping cart feature with the ability to add, update quantity, and remove products.
- Implemented search and filtering functionalities for a more personalized shopping experience.
