Anshul Agrawal

Full Stack Web Developer

Professional Summary

Highly passionate Full Stack Web developer skilled in MERN stack with expertise in backend development using Express.js and related frameworks. Experienced in designing and maintaining high-quality server-side applications and RESTful APIs. Proficient in JavaScript, Node.js, MongoDB, Express.js, GIT with good knowledge of frontend technology like HTML, CSS, React and Redux. Strong problem-solving skills along with a solid foundation in data structures and algorithms. Ability to collaborate effectively with cross-functional teams. Proactive and self-driven.

Experience

- Ind Supply Corporation, Bhopal, Madhya Pradesh** | Junior Manager
August 2021 - October 2023
- Successfully managed order tracking and updates, improving communication and delivery timelines.
 - Resolved technical and billing issues, enhancing customer satisfaction and operational efficiency.
 - Handled product quality complaints and previous service issues, contributing to increased customer retention and satisfaction.
 - Assisted customers with information, demonstrating strong problem-solving and communication skills.

Projects

- My Notes App** [Live Demo Link](#) [Github Repo Link](#)
- Node.js
 - Express.js
 - MongoDB
 - JavaScript
 - RESTful APIs
 - React
 - CSS3
 - Responsive Web Design
 - Redux
 - Git
- Developed a full-stack web application using Node.js, Express.js, MongoDB, and React.js.
 - Implemented CRUD operations with optimized RESTful APIs for creating, retrieving, updating, and deleting notes.
 - Built a responsive and intuitive user interface with React.js, ensuring seamless integration with the backend.
 - Utilized Redux for efficient state management and Git for version control.
 - Ensured application security with proper authentication and authorization mechanisms.
