## Professional Summary

Experienced backend Developer, skilled at creating high-performance, robust and reliable server-side applications and RESTful APIs. Proficient in JavaScript, Node.js, Express.js, Nest.js, MongoDB and DSA with a proven ability to learn new technologies quickly. Excellent communicator and collaborator committed to seamless integration across teams. Highly Passionate, proactive and self-driven.

## Education

### Prepleaf by Masai

Full Stack Web Development - MERN

Jun 2023 – Oct 2024

### SGSITS, Indore, Madhya Pradesh

B.Tech in Computer Science Engineering

Jul 2018 – Apr 2020

## Experience

### Schoollog, Jaipur, Rajasthan

Software Development Intern

Nov 2024 - Jan 2025

- Collaborated effectively with designers and developers to create functional and scalable web applications, ensuring alignment with project requirements.
- Designed and developed efficient server-side APIs using Nest.js, ensuring efficient backend operations.
- Developed and maintained robust frontend components using React.js and Next.js for seamless user experiences.
- Created optimized database models and queries with MongoDB to enhance data retrieval efficiency and application speed.
- Conducted comprehensive testing and debugging procedures to resolve application issues, ensuring overall application stability and reliability.

## Projects

### Enquiry Management App | *JavaScript, React, Git, Node.js, MongoDB, HTML5, CSS3, Nest.js, Next.js, TanStack Query*

- 🚀 **Deployed Link** : <https://enquiry-management-app.vercel.app/>
- 📁 **Github Repo** : [https://github.com/AnshulAgrawal999/Enquiry\\_Management\\_app](https://github.com/AnshulAgrawal999/Enquiry_Management_app)
- Enquiry Management App is designed to streamline the process of handling prospective student enquiries for school admissions.
- Built a user-friendly full-stack application using Next.js for the front end and Nest.js for the back end.
- Designed an admin dashboard for comprehensive enquiry management and internal comments.
- Implemented secure admin login and enquiries table with filtering, sorting, and pagination.
- Developed detailed enquiry profiles with full student information and enquiry timelines.
- Added functionality for admins to edit enquiries and add/delete remarks.

### ProTask App | *JavaScript, Node.js, Git, Express.js, MongoDB, RESTful APIs*

- 🚀 **Deployed Link** : <https://drive.google.com/drive/folders/1QzCJiwJuDryGjdAxcaUUOb9TjaL0UxYN?usp=sharing>
- 📁 **Github Repo** : <https://github.com/AnshulAgrawal999/Pro-Task>
- ProTask is designed to empower efficient task and project management.
- Developed a robust backend application using Node.js, Express.js and MongoDB.
- Created optimized RESTful APIs for user authentication, user authorization (with Bcrypt and JWT), note, project and task creation, modification and deletion processes.

## Skills

**Technical Skills:** Go, TanStack Query, Nest.js, Next.js, RESTful APIs, Git, Redux, MongoDB, HTML5, CSS3, Express.js, Node.js, React, JavaScript, C++

**Soft Skills:** Attention to Detail, Time Management, Teamwork, Effective Communication, Adaptability
